

HG
SPEED LIMITER
MODEL 2.1

SPEED LIMITER
FOR ROAD SAFETY
Model:2.1

Manufacturer: Hustle Yangu Limited

MAJOR FUNCTIONS

Control the vehicle

1. SPEED LIMITER.

- Limiting the speed of your vehicle when the preset maximum speed is reached
- Tracking capabilities.
- Alerts when at a speed of 5% less than the preset speed
- Geo fencing speed limitation. i.e. when in a specific area, an automatic speed limit is enforced.

2. TAMPER PROOF

The HG 2.1 is completely tamper proof. In the event of attempted tampering, a violation notification will be sent out and the speed of the vehicle will be automatically reduced to 40 KM/H

3. VIOLATIONS ALARM .

An alarm will be transmitted to the platform in the event of: over speeding, disconnection, attempted tampering or fatigue driving.

4. E-MAIL AND SMS ALERTS.

Any loss of signal between the device and the storage system for more than 5 minutes will automatically alert the administrators via email.

SMS (text) notifications are sent out when the car over speeds.

5. REAL TIME FLEET TRACKING.

An administrator can view the current location and trajectory of the vehicle

6. PRINTABLE SPEED RECORDS

The Speed Governor can be connected to an external portable printer or a computer to view recorded speeds

- Over speeding can be printed-out within the last one hour
- The portable printer requires special access hence it prevents drivers from printing
- Speed violations can be printable alone

7. USB AND BLUETOOTH CONNECTIVITY

The Speed governor can be connected to portable printers or computers through a USB cable and to mobile phones via Bluetooth

8. A 72-HOUR DATA STORAGE

Data is recorded in intervals of 5 seconds and stored for up to 30 days
